

**submerged arc welding system ESAB - LAF 1251M + A6TF F1**

**Article no.:** 3682  
**Machine no.:** 935-027-8026 + 940 028-401  
**Type:** LAF 1251M + A6TF F1  
**Year of construction:** 2010  
**Price:** request  
**Description:** welding current max. 1,250 A  
 A6 Mastertrac up to 6 mm solid wire electrode - up to 4 mm cored wire electrode  
 PEK welding tractor control  
 manual joint scanning via laser lamp  
 JS - 200 welding powder silo with drying  
 documentation available  
 electrical data 400 V / connection CEE 125 A  
 - machine has been rarely used -
