

submerged arc welding system ESAB - LAF 1250M + A6TF

Article no.: 3687
Machine no.: 712-925-9906
Type: LAF 1250M + A6TF
Year of construction: 2009
Price: request
Description: welding current max. 1,250 A
 A6 Mastertrac up to 6 mm solid wire electrode - up to 4 mm cored wire electrode
 PEH welding tractor control
 JS - 200 welding powder silo with drying
 assortment box with spare parts
 without welding cable
 documentation available
 electrical data 400 V / connection CEE 125 A
 - system has been used little -
